

# JUNGLE EXPERIENCE

**Sepilok Orang-Utan Rehabilitation Centre** is located just 40 minutes from Sandakan. Established in 1964, it is the largest and longest running rehabilitation centre in the world. More than 4,500 hectares of virgin jungle has been set aside as a forest reserve for these magnificent creatures. The majority of **orang utans** at the sanctuary have been orphaned or abandoned by their mothers at logging sites or rescued from illegal hunting or captivity. Other areas you will visit have the greatest concentration of wildlife in Borneo. Numerous species may be viewed on a boat trip, including **orang utans, macques, red and silver leaf monkeys, pygmy elephants, hornbills** and the unique **proboscis monkey**, found only in Borneo.

# SCUBA DIVING

**Sipadan Island.** The internationally renowned island of Sipadan is an oceanic island formed by living corals growing on the peak of an extinct, under sea volcano. Rising 600 meters from the seabed, this 40 acre unspoiled island lies just 5 degrees north of the equator in the Sulawesi Sea (Celebes Sea), 35 kilometres to the south of Semporna, on Sabah's mainland. Covered in a lush, dense forest and surrounded by a white, sandy shoreline, Sipadan sits at the heart of the Indo-Pacific basin - in the centre of the richest marine habitat in the world.

**Diving Kapalai:** Like the nearby island of Mabul, Kapalai also offers fantastic small critter diving. The Ligitan Reefs offer a safe haven for many of the juvenile species, far removed from the threat of dangerous reef predators found at Sipadan. The sandy bottom and sparse coral heads host an array of small and very colourful subjects. Rare species such as mandarin fish, dragonets, fire gobies, giant frogfish, wasp or leaf fish, ribbon eels, harlequin ghost pipefish are seen on a regular basis. For snorkelers this paradise.
