of the deep

**DEEP DIVER  
COURSE  
Only \$440**

**April 17 & 18**

## DIVING INTO THE DEEP

Talk about deep diving and watch how divers react. Novice divers who have yet to venture below 18m want to know what it's like. More experienced divers qualified to dive to 40m show enthusiasm tempered with respect for the more serious nature of deep diving.

Not everyone does it. Not everyone can do it. But there's something attractive, exciting and mysterious about diving deep and it opens up a whole new range of dive sites which previously would be out of reach.

Snorkel Inn's specialist dive crew can show you how to plan and organise a deep dive. They will also show you the techniques and skills required to manage problems and hazards associated with diving deep. By the end of this experience you will be a qualified Deep Diver.

## Deep Diver Itinerary

Day 1: You will meet our Specialist Crew who will review what you have learned in your home-study manual and take you on two boat dives. On these dives our Specialist Crew will teach you how to plan and prepare for a deep dive. You will be shown how to use air supplies such as staging tanks. You will also be shown the techniques required to use decompression/safety stop bars.

Day 2: You will go on another two boat dives. On these dives you will plan your own multi level dives, become skilled in blue water ascents and develop emergency procedures. You will also get the opportunity to experience a twin tank setup.

## Deep Diver Essentials

- Advanced Adventurer certification is the minimum prerequisite to enrol in this course.
- You must have your own snorkel kit and safe diver kit including but not limited to: mask, snorkel, fins, boots, gloves, safety signal tube, whistle, slate, torch and knife. You will also be required to have your own deep deployable surface marker.
- If you do not already have your own scuba kit you can hire it for the weekend at club rates.
