Papua New Guinea

Papua New Guinea comprises of a remarkable collection of islands, atolls and coral reefs scattered around it's coastline. A land of adventure, mystery, lost cultures, tropical jungles and high mountain ranges. Not to mention spectacular scuba diving sites. Kavieng is renowned for it's current-swept channels that attract a variety of big Pelagic fish. Eagle rays, Mantas, Tuna, Barracudas and reef sharks can be seen. Miles of reef walls that drop away to great depths, are covered in big fans, sponges and beautiful hard corals that provide the perfect hiding place for small critters like nudibranchs and the Pygmy Seahorse.
